Description:

Millions of readers have discovered the magic of David Eddings' New York Times bestselling series *The Belgariad*. Now the first three books in this monumental epic appear in a single volume. Here, long-time fans can rediscover the wonder—and the uninitiated can embark upon a thrilling new journey of fantasy and adventure. It all begins with the theft of the Orb that for so long protected the West from an evil god. As long as the Orb was at Riva, the prophecy went, its people would be safe from this corrupting power. Garion, a simple farm boy, is familiar with the legend of the Orb, but skeptical in matters of magic. Until, through a twist of fate, he learns not only that the story of the Orb is true, but that he must set out on a quest of unparalleled magic and danger to help recover it. For Garion is a child of destiny, and fate itself is leading him far from his home, sweeping him irrevocably toward a distant tower—and a cataclysmic confrontation with a master of the darkest magic.

David Eddings and his wife have dreamt up a wonderful world here that I and my children visit frequently in this and the nine remaining books that follow the lives of a cluster of wonderful and varied people becoming richer and more detailed as they go, building up the world and its many colorful varied races of men! They masterfully weave history and present, solid reality and practicality along with sorcery and witchcraft in this classic good vs evil story. They move beyond the norm though giving us ample understanding of peoples on BOTH sides so well that you, as the reader, really care that the central characters can prevail in their tasks thereby preventing world war! And a world war is horrific enough without adding some pretty powerful magic as well on both sides! Intricate plots inside plots that unfold over the course of the series so completely that as sad as I am every time I finish it and have to say goodbye to the characters again at least the story feels well and truly finished as far as the wondering what might happen to these many people you've come to abhor, or care deeply for! So completely and well written we even come to care about some characters that we start out fearing and abhorring! :-D Clever, moving, funny, terrible, fascinating, insightful, complex, ugly and beautiful, silly and wise... Eddings plumbs the depths of humanity for this epic and I can't say enough in praise of his humbly offered stories!
